

Towards a Putative NACCQ Anthem: Ten 'Puters

Tony Clear

Auckland University of Technology

Tony.clear@aut.ac.nz

Proceedings of the 15th Annual NACCQ, Hamilton New Zealand July, 2002 www.naccq.ac.nz

We are women and men and all we do is play P.C.'s
We come from miles around to meet and watch our keyboards freeze
Beneath the stars of screensavers, we've seen our students grow
And if there's one who can program, then this is what we do

Ooh program, program, program my ten 'pu-ters
And very soon you won't know where you are
Through the eyes of night you'll see thous-and er-ro-o-ors
When you program, program, program my ten 'pu-terrrs.

"Puters are made for games, our band of students always say
So give them all some IDE's and they will start to play
Beneath blue screens, my ten 'pu-ters will boot again for you
And if you write procedure code you'll never use "gotos"

Ooh program, program, program my ten 'pu-terrrs
And very soon you won't know where you are
Through the eyes of night you'll see thous-and er-rorrrs
When you program, program, program my ten 'pu-terrrrs.

Ooh let me tell you now program, program, program my ten 'pu-terrrrs
Hm, come on everybody, program, program, program my ten 'pu-terrrs

Ooh dance, dance, dance to my ten 'pu-terrrrs
And very soon you won't know where you are
Through the eyes of night you'll see the confer-e-e-ence
When you dance, dance, dance till you are NACCQerrr-ed.
