Recent News Items

- The NZ Government is looking to overhaul its Information and Communications Technology (ICT) systems in a shake-up by tender worth \$2 billion (NZ Herald, 17 Jan 2011)
 - Change includes plan to introduce a new model called the Infrastructure as Service model
 - NZICT CE Brett O'Riley said that there is a massive amount of interest – this will be one of the biggest opportunities in the NZ market in 2011

Conclusions:

- *ICT enrolments across the ITP sector could be significantly up, if Wintec's current School of IT enrolments are any indication*
- *Future ICT job potential remains extremely healthy*
